Presentation**

PYTHON FULL STACK DEVELOPMENT INTERNSHIP

Student Name: Udit Yadav

Enrollment Number: 2410030368

Program & Semester: B.Tech CSE • Semester V

Organization Name: EduSkills Foundation

10-Week Internship Credential • 2026

Internship Overview

What the internship covered

Domain

Python Full Stack Developer
Web application development

Duration

Completion certificate records
a
10-week internship

Organization

EduSkills Foundation
Internship credential

- Exposure to front-end, back-end, database, and version-control concepts.
- Technologies listed on the completion certificate: HTML, CSS, Bootstrap, JavaScript, jQuery, Python, Django, SQL, and Git & Version Control.
- No separate commercial/client project is identified in the supplied internship documents; this presentation therefore focuses on the training and learning experience.

Organization Profile

EduSkills Foundation

- EduSkills Foundation is the organization named on the internship offer and completion documents.
- The offer letter identifies the internship domain as Python Fullstack Developer and describes a structured virtual internship program.
- The completion certificate confirms successful completion and identifies the technology areas covered.
- The supplied documents do not provide enough information to make additional claims about organizational history, employee strength, office locations, or commercial products.

Internship Objectives

Learning goals

Objective 1

Understand HTML-based web-page structure.

Objective 2

Use CSS and Bootstrap for styling and responsive design.

Objective 3

Learn JavaScript, DOM manipulation, and jQuery.

Objective 4

Strengthen Python programming fundamentals.

Objective 5

Understand Django for structured web applications.

Objective 6

Learn SQL/database querying and management.

Objective 7

Understand Git and version-control practices.

Objective 8

Connect front-end, back-end, and database concepts.

Technologies & Tools

Technology stack covered during the internship

HTML

Page structure

CSS

Styling & layout

Bootstrap

Responsive UI

JavaScript

Client-side logic

jQuery

DOM/AJAX utilities

Python

Programming & backend

Django

Web application framework

SQL

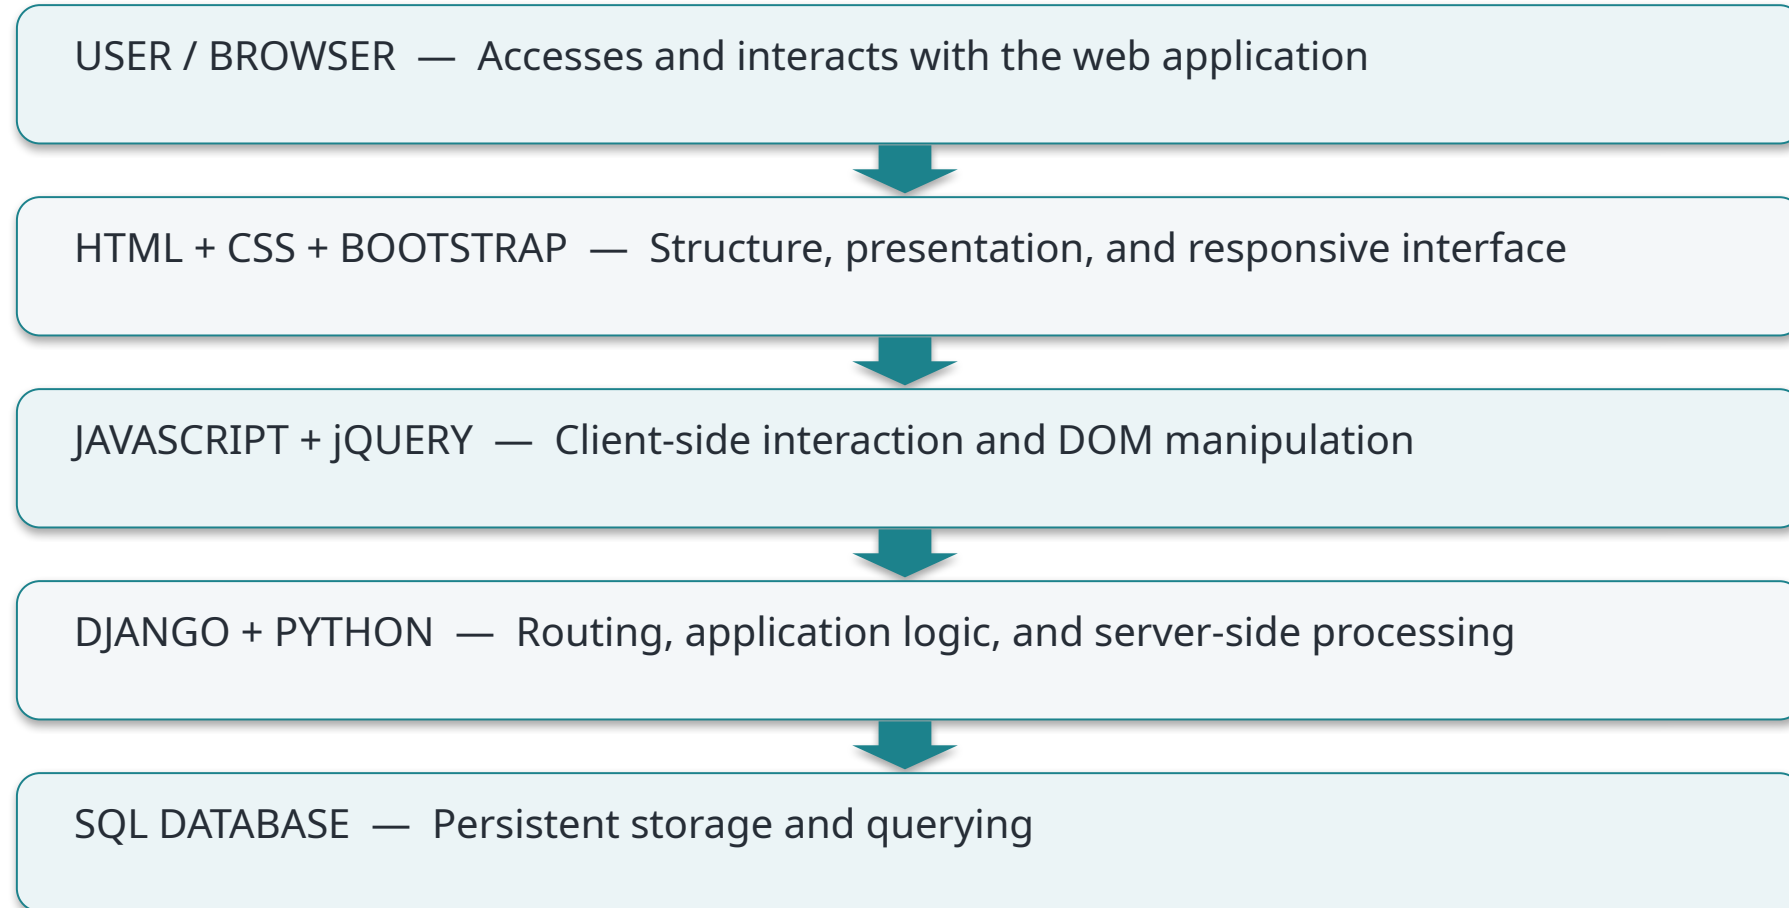

Database querying

Git

Version control

Conceptual System Architecture

How the covered technologies fit together

Methodology

Progressive learning and development workflow

- Start with page structure and styling, then add browser-side interaction.
- Move to Python/Django for server-side application concepts and SQL for persistent data.
- Use Git and version control to manage source-code changes and integrate the learning into a full-stack workflow.

Learning Outcomes

Skills and understanding developed

1

Front-end development fundamentals

2

Responsive web design

3

Client-side scripting and DOM concepts

4

Python programming fundamentals

5

Django web-application concepts

6

SQL and database management

7

Source-code management with Git

8

Understanding of full-stack integration

INTERNSHIP DOCUMENTATION

Certificate of Completion & Internship Offer Letter

CERTIFICATE OF COMPLETION

CERTIFICATE
OF INTERNSHIP

PRESENTED TO

Udit Yadav

has successfully achieved the Internship Credential by completing a 10-week program in the domain of

Python Full Stack

During the internship, the learner demonstrated proficiency in:

- HTML: Foundations of Web Development
- CSS: Styling and Designing Web Pages & Bootstrap: Responsive Web Design Framework
- JavaScript Fundamentals and DOM Manipulation
- jQuery: Simplifying JavaScript Development
- Python: Programming Fundamentals and Applications
- Building Web Applications Using Django
- SQL: Database Querying and Management
- Git & Version Control: Managing Code Effectively

This certification recognizes the successful completion of the internship requirements.

INTERNSHIP OFFER LETTER

Nation Building Through Skills

Ref No: C16Y2026M081364118

Internship Offer Letter

Student Name : Udit Yadav
Stream : B.Tech
Branch : B.Tech(Computer Science and Engineering)
Institute Name : IILM University, Greater Noida
Internship Domain : Python Fullstack Developer
Internship Duration : April 2026 - June 2026
AICTE Student ID : STU699ca0c04eaa61771872448

We are pleased to inform you that you have been selected for the 8-Week **AICTE – EduSkills Virtual Internship Program**.

During this internship, you will learn and demonstrate industry-relevant skills that will enhance your employability and strengthen your confidence in the subject area.

The program is designed to provide structured learning combined with practical exposure.

Internship Structure & Evaluation:

- The internship will follow a **week-wise structured learning plan**.
- You will be required to complete **weekly assessments** to track your progress and understanding.
- Certain modules will require submission of **project documentation and assignments**.
- In the final week, you must appear for a **Final Assessment Test**.
- The final grade will be based on your overall performance, including weekly assessments, project submissions, and the final test.

Upon successful completion of all required steps and assessments, you will be awarded a **Virtual Internship Certificate**.

Please note that this offer letter will be considered valid only after the successful completion of the internship program and fulfillment of all assessment requirements, including obtaining the final completion certificate. Without the final completion certificate, this offer letter shall not be treated as a valid document for any official purpose.

Conclusion

Summary of the internship experience

- The internship provided structured exposure to the major layers of Python Full Stack development.
- The learning path connected front-end technologies with Python/Django back-end concepts, SQL databases, and Git.
- The experience established a foundation for developing database-driven and maintainable web applications.
- The completion certificate documents successful completion of the internship.
- Future work can build on this foundation through a complete end-to-end application and deployment project.

Thank You
